## How Television Has Changed

You really have to get very old before you realize you're old. I'm in my middle fifties and I don't feel old yet. However, sometimes I look back at my childhood and \_\_1\_\_ things to the way life is for \_\_2\_\_ kids. Some things have certainly changed.

One area of change is television. Some changes have been improvements. Some changes, on the other hand, have been \_\_3\_\_.

When I started school, most people didn't have a television; TV was just beginning to get \_\_4\_\_. My father decided to go all out and buy a 16 inch black and white Motorola set. I still remember watching the Lone Ranger save people from the \_\_5\_\_ guys on that awesome electronic machine. That was exciting!

Now, \_\_6\_\_ have larger pictures in full color. The pictures are clearer and the sound is much more realistic. The new high definition sets are made to rival \_\_7\_\_ screens.

The variety and quantity of programming has \_\_8\_\_ greatly. There are hundreds of channels and more shows than one person could ever watch. There are many fine entertainment and educational \_\_9\_\_. There's also a lot of garbage, stuff that most parents don't want their kids exposed to. Overall, we have more choices, and that is good.

I wonder what \_\_10\_\_ will be like when today's kids are my age.
